Dedication

A small hole in the ground, beginning with the groundbreaking, has transformed into a busy society of workers creating a new vision of Lick. Everyday is a progressive and exciting step in the direction of completion.

It's fun to watch as slowly the new campus takes shape, but its finalization is awaited with anticipation and high hopes.

We know the new building, once completed, will offer Lick students many new resources and opportunities, and look forward to enjoying and sharing them together.

A collective "thank you" goes out to the construction workers and all of those involved in the transformation of the pit into the future of Lick.

Our growth as individuals and students parallels the evolution of the construction site

We started as innocent freshmen, coming together from different schools and different places.

Everyone's face and personality was new and refreshing.

Quickly friendships and bonds formed as we became the Tiger Class of 2003.

We have grown to become young adults pursuing different interests and goals

and now we are ready to face the everyday tribulations of life.

Throughout our four years at Lick there's been all types of emotions ups and downs, highs and lows, and students coming and going.

But now as a graduating class we've come to respect each other as individuals.

And as we leave Lick with a sense of accomplishment, we will never forget

the years spent here at Lick, and the memories we'll cherish forever.

Headmaster's Message

Dear Class of 2003,

I will remember you for many things, including the grace, good will and dignity with which you navigated the largest and most intrusive building project in Lick's history during your senior year. On behalf of future generations, thank you for that. The New Technology and Design Center and Cafeteria Student Center promise to make Lick even more seriousness of your "Lick-like" in the years ahead. I remember your joie de vivre. And, of course, I will remember your talents and varied impressive interests and stage, on the athletic field, in the art studio and in the larger community. There is no doubt in my mind that you will, individually and collectively, use what you have learned at Lick to make the world a better place. We will follow your journeys with great interest and admiration. I wish you satisfying and enduring relationships, happiness, fulfillment and peace.

With great love and respect,
Dr. A

Lick will be more distinguished so I don't mind the noise

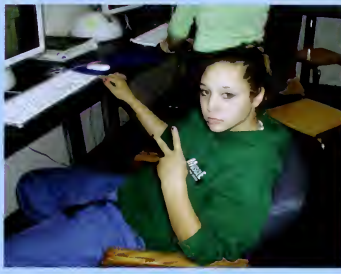

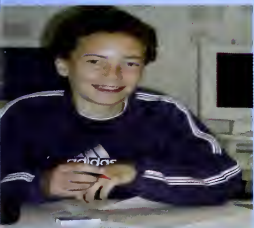

How has the construction affected

I get extended passing periods

your view of Lick?

It's exciting to see the process

I get more exercise

It shows that Lick wants to make a great learning environment for its students

What is the biggest change you have

experienced since freshman year?

Facial hair

I have started to find my place at Lick.

I wear lipstick now.

My attitude

Learning who my true friends are.

Everything grew

Feeling more comfortable with individuals in my class

My hair

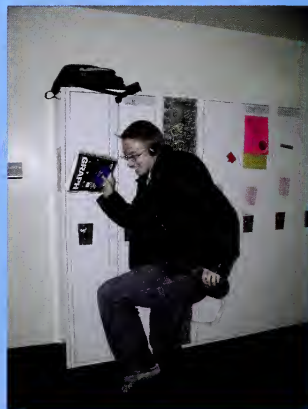

Lick has become my home.

Puberty

What part of the new plan are you most excited about?

Facilities for cooking

I am excited for the new scene shop.

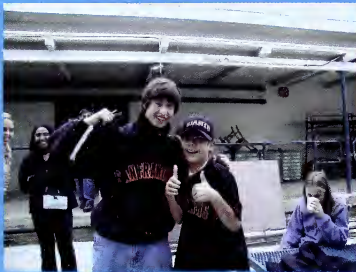

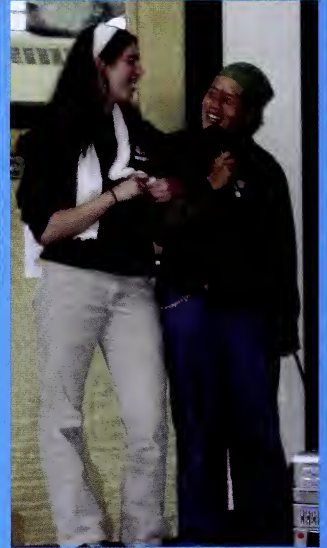

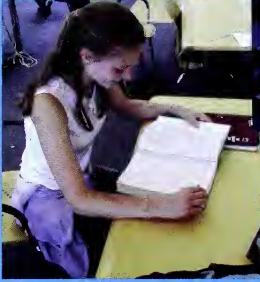

Fashion and design classes that teachers have mentioned

The uniqueness of the underground shops and solar panels

What part of the old campus are

you going to miss the most?

Come gather 'round people
Wherever you roam
And admit that the waters
Around you have grown
And accept it that soon
You'll be drenched to the bone.
If your time to you
Is worth savin'
Then you better start swimmin'
Or you'll sink like a stone
For the times they are a-changin'.

Come writers and critics
Who prophesize with your pen
And keep your eyes wide
The chance won't come again
And don't speak too soon
For the wheel's still in spin
And there's no tellin' who
That it's namin'.
For the loser now
Will be later to win
For the times they are a-changin'.

Come senators, congressmen
Please heed the call
Don't stand in the doorway
Don't block up the hall
For he that gets hurt
Will be he who has stalled
There's a battle outside
And it is ragin'.
It'll soon shake your windows
And rattle your walls
For the times they are a-changin'.

Come mothers and fathers
Throughout the land
And don't criticize
What you can't understand
Your sons and your daughters
Are beyond your command
Your old road is
Rapidly agin'.
Please get out of the new one
If you can't lend your hand
For the times they are a-changin'.

The line it is drawn
The curse it is cast
The slow one now
Will later be fast
As the present now
Will later be past
The order is
Rapidly fadin'.
And the first one now
Will later be last
For the times they are a-changin'.

Another turning point, a fork stuck in the road
Time grabs you by the wrist, directs you where to go
So make the best of this test and don't ask why
It's not a question but a Lesson I learned in time
It's something unpredictable, but in the end is right
I hope you have the time of your life
So take the photographs, the still frames in your mind
Hang it on a shelf in good health and good time
Tattoos of memories and dead skin on trial
For what it's worth, it was worth ALL the while
It's something unpredictable, but in the end is right
I hope you have the time of your life.

"The road goes ever on and on
Down from the door where it began.
Now far ahead the road has gone,
And I must follow, if I can,
Pursuing it with eager feet,
Until it joins some larger way
Where many paths and errands meet,
And wither then? I cannot say."

THE END OF A DYNASTY

Go confidently in the direction of your dreams!
Live the life you've imagined.

Law of Constant Thrust, First Law of Anime Motion

-In space, constant thrust equals constant velocity.

Law of Sonic Amplification, First Law of Anime Acoustics

-In space, loud sounds, like explosions, are even louder because there is no air to get in the way.

A program should be light and agile, its subroutines connected like a string of pearls. The spirit and intent of the program should be retained throughout. There should be neither too little or too much, neither needless loops nor useless variables, neither lack of structure nor overwhelming rigidity. A program, no matter how complex, should act as a single unit. The program should be directed by the logic within rather than by outward appearances. If the program fails in these requirements it will be in a state of disorder and confusion. The only way to correct this is to rewrite the program.

Geoffrey James

To everyone who has helped me at some point or another... a small thank you. To Joel, who has given me a ride to school every day, to my friends who have been through everything with me, who know me but love me anyway. To Mott Ong who gave me his locker shelves. To my tennis partners: thanks for playing with me and to the tennis team, thanks for making me laugh. And as for all of you who say that track is not a sport, I say you get yourself out to one practice and see how hard we work before you say anything. So yay for track because I would never want to run with anyone besides the people on that team. To my teachers who have done their job exceptionally well: I won't go as far as to say thank you for all the work you gave me, but I am grateful for all of the hard work you all have put into this school, I

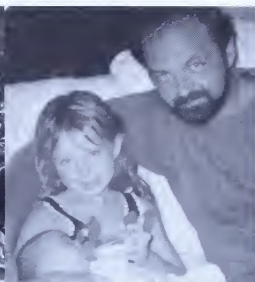

appreciate all your effort and thank you for all the guidance you gave me. And of course, to my family, who have loved and supported me all my life. To everyone who has been a part of my life, I say thank you. To everyone else, I leave you with Aristotle's words: "happiness depends upon ourselves."

THIS SEASON IN CROSS COUNTRY

The cross country team had a great season this year. Both the boys and girls Varsity teams placed second at the BCL West division championships. Our JV squad also had a strong season! The JV boys won the league championship and the girls successfully placed second. The most exciting part of this season was the number of runners that came out for the team. The boys team was the largest ever. This season was also full of records. John Gaudette ran the fastest time in school history and consequently ran his way to the State Championships. Diana Best ran one of the top five fastest times in Lick history as she also made it to States. Even though our two fastest runners are heading off to college, our squad looks to have a great season next year.

TENNIS SEASON
The girls varsity tennis team made history this year, smashing the school's previous record of 3-7 to finish with a record of 5-6. The team, comprised of players from all four classes, played against 12 schools this season. Lead by junior MVP Ilana Parmer, who played 3rd singles this season, the team traveled around the Bay Area to play their matches. This year was Ilana's third season on the Lick Varsity Tennis team. In her match versus Convent, as the last person playing her match in the fog at City College, Ilana beat her competitor in three sets to win the match for our team. Although the team enjoyed a successful season this year, we look forward to an even better season next year as we have a large number of hopeful freshmen.

Soccer Style

The boys Varsity Soccer team ss made up of 18 students from all 4 grades, who all played major roles on and off the field. Our team started off the season with a three game pre-season winning streak. This included a victory against Athenian, who are the champions of their league, and a victory of 9-1 over Emery High, a public High School from Emeryville. Star players like Max Sachar, team captain, amazed opposing teams with their skills and style of play. Josh Baugh amazed everyone with his ability to score goals, ending the season with 19 goals.

JV SOCCER

The JV soccer team's season went well. At least, they had a better season than the Varsity's. Though some wins were from forfeit, they no doubt improved and will continue to improve. Our Varsity's future is looking a bit brighter, because of them.

JV Girls Volleyball

JV girls volleyball, coached by Christina McFadden, provided eight freshmen girls with their first Lick athletic experience. The other four, sophomores Della, Julia, Felicia and Tiffany, rounded out the team while adding maturity and a sense of been there, done that. Ninety percent of the season was spent bonding at Chevy's, in the van, on the court, around the track, on the dance floor, and at the sleepover. We came up with the best cheers and the wackiest game day outfits, while running the mile every week and improving our records. Above all we learned that volleyball is a mental sport, a team needs to think together to win together, and if we make a mistake or lose our cool we just say ... Peanuts!

This year, the varsity boys basketball team has 5 players who are 3 year veterans , 3 players returning for a second year, and only 4 rookie players. Our team has 8 seniors, 4 juniors, and 2 talented coaches. That makes for a very experienced team. We started our preseason with a 4th place finish in the extremely competitive Boonville tournament and 1st place in the Valley Christian Tournament. We then started our season with a 5 game winning streak. We ended our season by winning the BCL championship.

This year the Girls Varsity Basketball team had a perfect mix of talent and heart. We had a 6 game winning streak and we were known to all as the best defensive team in the BCL west. We had some big wins and some tough losses, but our hearts and our spirits were always high. We loved playing together and worked harder than most other teams. With late practices everyday, and Saturday practices every weekend, we really were dedicated to each other and the game. This is a team that will never be forgotten. Thanks to our coaches, and to the fans. Go team. Go Lick...Go Girls!

TOGETHER

The JV Boys Basketball team showed a lot of improvement over the course of the season. Though the team consisted of mostly sophomores, they made up for their lack of experience with great hustle and impressive teamwork. They finished the season with back-to-back victories and a record of nearly 500.

JV Girls Basketball

This season the JV Girls Basketball team had many new players, but they fit right at home. They showed their Tiger spirit from day one and had tremendous heart. Lead by their capatins Liz and Corrina, the Tigers had an exciting and fun season. They had some odd struggles, but proved that they would not be stopped. These players are the definition of Tigers.

This season's team has six starting seniors and a core of bright young ball players who are steadily coming up in the ranks. This year, the LW ballers will be defending their BCL Championship. With dominating players through the line-up, it looks to be another successful year.

Frequently, people ask us – and usually in a mocking tone – why we choose to play volleyball at Lick. They mock us, discounting volleyball as effeminate, or not being a real sport like baseball or lacrosse. We may wear knee pads instead of helmets and cups, but we assert that after only twenty minutes of any of our practices, one will appreciate just how intense and challenging volleyball really is. Moreover, we are not just a bunch of scrubs; we have a team full of incredibly talented and skilled players, including captains Michael Susman and “Air” Tobias Yuen, and the dominating Jesse Barglow. Our hopes and expectations are high for this season, and we hope that people continue to support volleyball, for years to come.

Boys Varsity Tennis

Last year was successful season and left Coach Lisa Wu-Ancipink with high hopes and expectations for this season. Although the team graduated seven seniors last year, there are a number of returning players who look ready to play hard and produce lots of wins for the team. Led by senior and number 1 singles player Willy Leonard, the tigers look strong. The team also has a number of enthusiastic and talented freshman. Although they have faced hard competition in their matches thus far, the team's confidence and skills are improving. Coach Lisa says that the team, although fairly inexperienced, has been able to "hold [their] own" so far. This season looks to be a good one.

Love
&
Pride

By Your Parents,
Kate and Belle

From the baseball
diamond to the ski
slopes to tropical
beaches.

You are an explorer of
life, protector of
friends, devotee of
good times.

May your new
adventure bring you
much joy and
excitement.

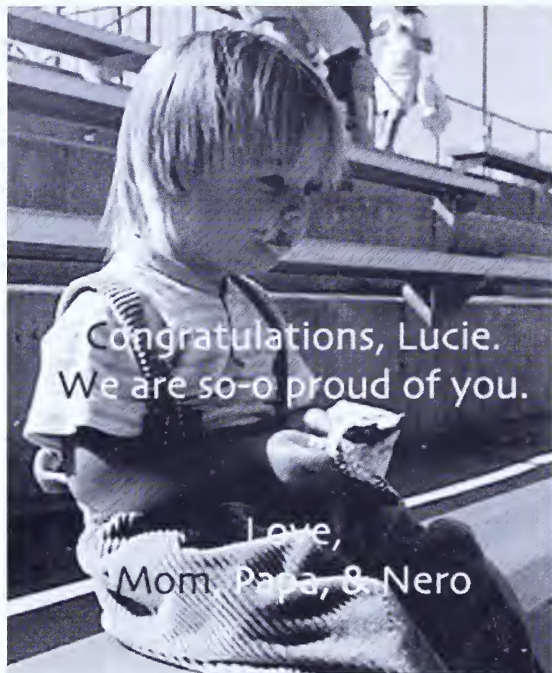

May you give back to your
community as much as it has
given you. May you continue
to learn about the world and
yourself.

**CONGRATULATIONS TO YOU
